### Next Generation System x Customer Benefits

- Significantly lower power savings - over \$100 per server per year
- Up to 60% reduction when idle vs. prior generation
- Up to 25% reduction when fully utilized
- Monitor and manage power consumption with AEM
- Significantly increase server efficiency with virtualization

For additional details, view [Announcement Letter 509-551](#)

To request an eligible evaluation server, go to the program Web site, sign in, and click on the **Golden** ticket.

Evaluation product return requests must be submitted no later than 5 business days beyond the end date of the approved evaluation period to avoid the return fee. Evaluations of qualifying products that extend beyond the initial 45-day period will automatically become 90-day product evaluations, with return fees assessed.

the annual channel evaluation limits per end user and the maximum number of servers per evaluation remain unchanged.
